

Matías Gaglio

Ecommerce & Amazon Growth Strategist

matiasnaciogaglio@gmail.com | LinkedIn | GitHub | Buenos Aires, Argentina

I combine Business Intelligence, PPC and visual content to help ecommerce brands improve conversion and profitability. I analyze performance, identify opportunities and turn commercial data into executable decisions.

CURRENT ROLE	PROFESSIONAL FOCUS
Amazon Account Listing Manager	Amazon Growth and PPC Business Intelligence Data-to-Creative

SELECTED EVIDENCE

Amazon Growth & PPC

\$1,560 to \$2,830 in retail sales (+81.53%) and 6.28% to 13.69% conversion (+118.16%) across consecutive 2025 windows. Observed ROAS in the aggregate view: 6.26.

I audited campaigns and listings, reorganized targeting, and coordinated content and media. Observational comparison; not a controlled experiment.

Business Intelligence for profitability

\$96,842.56 to \$312,480 in sales and \$15,624.09 to \$62,314.45 in estimated net profit from July through the October 27, 2025 cutoff.

I built the monthly portfolio view and prioritized actions by connecting sales, media, costs and margin. Brand anonymized.

Daizy Gear - Amazon operations

\$874 to \$2,415 in ordered revenue between June 14-20 and June 21-27, 2026 (+176.4% week over week).

I audited PPC, defined budget criteria and coordinated inventory, promotions, A+ Content, Storefront and catalog. One-week recovery, not sustained growth.

WORKING APPROACH

Diagnose the constraint - prioritize by impact and evidence - implement with clear ownership - measure baseline, period, outcome and limits.

TOOLS

Seller Central, Amazon Ads, SEO and CRO | SQL, Python, R and Power BI | GA4 and Google Ads | Commercial reporting | Listing architecture | Visual design, 3D and automation

EDUCATION

Communication Sciences, University of Buenos Aires (UBA)
Pharmaceutical Sales Representative, Favaloro University
